FALL 1931

WORLD SERVICE FROM

Rynveld's Gold Medal Bulbs

(For the Wholesale Trade Only.)

OUR many friends in the trade who have been watching our progress over the years will undoubtedly be pleased to learn that our bulbs have again won highest recognition at the various trade exhibits, both here and in Europe.

1931 AWARDS

First prize at the Daffodil Show held by the Westbury Horticultural Society at Westbury, L. I.

Silver Gilt Banksian Medal of the Royal Horticultural Society's Daffodil Show, London, England.

Gold Medal for Daffodils at Haarlem, Holland.

Gold Medal for Cottage and Darwin Tulips at Haarlem, Holland.

These awards are the result of constant striving to improve upon the quality and selection of our bulbs and it is our earnest intention to spare neither effort nor expense in our endeavor to maintain the high standard of our product.

Aside from this public recognition, we appreciate even more the response received from our many friends in the trade as indicated by the vast amount of complimentary letters received as well as a steadily increasing volume of business.

ASK FOR THESE FREE DISPLAY CARDS

For florists who cater to counter trade in Fall bulbs, we offer free with every order attractive lithographed display cards, showing many varieties of Hyacinths, Tulips, Daffodils, Narcissus, Crocus, Lilies, Peonies, etc., in their natural colors.

We have also window banners and streamers.

Ask for these if you want them. They will be a great help selling bulbs over the counter.

In order to keep pace with the growing demand for our bulbs, we are continually increasing our acreage at our various growing stations—in Holland, Yaphank, L. I., Hicksville, L. I. and Jacksonville, Fla. On the West Coast we maintain an office devoted to buying in order that we may be in constant touch with the suppliers of California grown bulbs. Because of rigid supervision at all of our growing stations and close cooperation between them, we are able to select the choicest bulbs for sale—the kind that ultimately prove to produce more luxuriant, hardier and finer growths in every respect than the ordinary run of bulbs.

Supremacy in volume (the natural outcome of *supremacy* in quality), together with the elimination of the middleman, enables us to sell quality for quality, at lower prices than our competitors.

With this ideal set up—world-wide farms, volume production, top-notch quality, low prices, quick deliveries—we feel that we are in a position to serve you as completely and as satisfactorily as you desire to be served. Those who bought of us before, we sincerely thank for their

patronage, and hope that we may continue our pleasant business relations. Those who have not used our bulbs, we invite to give us a trial order and extend to us an opportunity to demonstrate with both product and service how we have earned the title "World's Foremost Bulb Growers."

LIBERAL TERMS TO RESPONSIBLE PARTIES

(We have revised the text of our terms and ask all customers, both old and new, to read it):—

Our regular terms of sale are as follows: 5% off for cash with order, 2% off for cash within 10 days; final payment to be made within 60 days. These terms still apply to all sales to customers who in turn resell the bulbs.

To the grower and florist, however, we have inaugurated the "GROWERS' TERMS" of sale. They are as follows: invoices for bulbs are payable from responsible florists and growers 10 days after the normal flowering period of the particular bulbs sold, with final payment on late bulbs due 10 days after Easter. We, in this way, endeavor to assist the florist and grower during the period that the stocks are in growth.

OUR GUARANTEE. We guarantee that all bulbs leave our farms and warehouses in good condition, packed in boxes or packages substantially secure and sufficiently strong to insure delivery in good condition with reasonable handling. The risk of transportation is one which the customer must absorb.

Non-Warranty

Most of the failure with bulbs and plants are due to causes beyond our control, which makes it impossible for us to guarantee results and although we take all possible care to supply only such merchandise as will under proper condition produce satisfactory results, we still give no warranty expressed or implied as to description, quality, or productiveness of any bulbs, roots, plants, etc., we send out, and will not be in any way responsible for the crop. It must be plain to every one that it is to our own interest to make every possible endeavor to send out only such stock as will not only prove true to name and description but will produce as well.

ALL PRICES CONTINGENT UPON MAINTENANCE OF PRESENT TARIFF SCHEDULE AND SUBJECT TO ANY CHANGES MADE THEREIN UP TO AND INCLUDING TIME OF DELIVERY.

Rynveld's Superior Paperwhites

Exceptionally fine bulbs at greatly lowered prices

THIS is the combination that we are able to offer our customers this year for the crop never was finer and the increased quantities permit of lower prices. We maintain that our bulbs, produced on our own farms in Jacksonville, Fla., are the finest available in this country. Bear in mind that Florida is a large state and do not be misled by offers from many other parts of the state where weather conditions are totally unlike our section and where bulbs of variable quality are produced.

NARCISSUS—PAPER WHITE GRANDIFLORA

Our lower prices will tend to reestablish these bulbs in the popular favor thus possessed before the embargo. For the smaller grower, who has his own retail outlet, these bulbs provide a dependable supply of flowers over a period when cut stock is scarce. Their greatest value, of course, is in counter sales for bowl work and with the present craze for dish gardening a good demand should be experienced to all those who feature them.

Narcissus Paperwhite Grandiflora

Our prices For 1931

Packed in standard size cases of the same style formerly imported from France.

	Per 100	Per 1000
12/13 Ctm. packed 1250 to case	\$2.25	\$18.00

These prices are F.O.B. New York or Jacksonville, Fla., whatever you prefer. We also carry stock in Chicago, from this point however we can fill orders for case lots only. When ordering please state shipping point.

Grand Soleil d'Or

(Yellow Paper White)

Pure golden yellow. We have the largest block of these ever assembled at one place, and our Florida bulbs give excellent results. Can be bloomed just as easily as Paperwhites and no trouble is experienced in getting them into flower for the Xmas holidays.

	100	1000

Chinese Sacred Lily

The bulbs we are producing in Florida are much finer than ever came from China. They do not have that crab-like appearance of the imported stock but are more solid and flower more readily. Very popular for house culture.

First Size Bulbs	100 \$6.50;	1,000 \$55.00
Mammoth Bulbs	100 \$7.50;	1,000 \$65.00

Double Roman

"Constantinople"

This is possibly the most fragrant of all Narcissus. Large, full double flowers produced in clusters. Easily forced or grown in the home.

Per 100, \$5.50; per 1,000, \$50.00.

Gloriosa

Cream yellow with darker yellow eye. Popular with Florists. Flowers very early and has good substance.

Per 100, \$5.50; per 1,000, \$50.00.

Grand Monarch

This is one of the sturdiest of the polyanthus Narcissus. Produces large clusters of cream-white flowers with canary yellow centers on very stocky stems. Is not early but a splendid variety for flowering, from February first and later.

First Size	Per 100, \$ 4.50
	Per 1,000, \$40.00
Mammoth Bulbs	Per 100, \$ 6.00
	Per 1,000, \$50.00

White Pearl

This is a pale creamy-white variety which, on account of its long keeping qualities, promises to be very valuable for dry bulb sales extending into the early spring months after Paperwhites are finished. It produces a large cluster of flowers with much substance and is very floriferous.

Per 100, \$5.00; per 1,000, \$45.00

GIANT FLOWERING HYBRID AMARYLLIS

Having the finest collection of Amaryllis is the pride of every one connected with our firm; and for many years we have spared neither time nor expense in constantly improving the strain.

Wherever we have seen an outstanding plant, we purchased it irrespective of the cost; two years ago we acquired a gold medal collection of perfectly formed pure white and pink specimen at a cost of \$20.00 a bulb. In addition to this, we only save the seed of our very finest specimen. We therefore know that nothing more perfect could possibly be offered regardless of price.

Our selection does not only include a very wide range of colors, but also some with beautiful markings and mottled throats.

AMARYLLIS HALLI

Lycoris Squamageri

It has been difficult to amass sufficient stock of this beautiful subject to permit of a general offer; but we now have a fair supply. Produces a graceful lavender spike in midsummer without foliage and the latter is developed in the early Spring. It is hardy. Each, \$1.00; per doz., \$10.00.

BELLADONNA

One of the best of "cool house" flowering bulbs. Large trumpet-shaped flowers of a pale china pink. We can make immediate delivery of these bulbs, as they require to be potted early for best results. Doz., \$2.50; 100, \$17.50; 1,000, \$150.00.

EQUESTRE

A free flowering flame red variety that is much admired by all. Makes a fine pot plant and is very valuable for outside planting in the South, where it propagates freely.

Doz., \$1.50; 100, \$10.00; 1,000, \$85.00.

AMARYLLIS JOHNSONI

The old favorite free flowering variety. Crimson with white stripe. Naturalizes readily in the South.

Doz., \$3.00; 100, \$20.00; 1,000, \$175.00.

Superb Darwin Tulips

DARWIN TULIPS are growing in popularity by leaps and bounds. Whether you force them in pans or use them as cut flowers, plant them outside or in frames, they represent the biggest dollar's worth in the whole bulb list. Florists have just awakened to the outdoor possibilities of these beautiful Tulips, and larger plantings are being made every season. At Mother's Day it is one of the most important cut flowers. We are growers of large quantities of Darwins on our own grounds and can supply the finest bulbs, in the choicest varieties, at the most reasonable figures.

PARTIAL VIEW OF ONE OF OUR FIELDS OF DARWIN TULIPS

"World's Foremost Bulb Growers"

We Suggest "King of the Yellows" for the Best Forcing Early Yellow

Single Early Tulips

These bulbs have their greatest value when forced early, for it is obvious that they cannot compete favorably when the larger later types come into flower. Some of the varieties are readily bloomed for Xmas and others maintain an unbroken succession through the early Winter months.

Their popularity for outdoor formal bedding is well known, and they continue to be used extensively for this purpose in parks and gardens all over the country. Particular care should be taken in selecting the varieties best adapted to the purpose intended, for many have a beauty or value only when grown under certain conditions.

TRIUMPH TULIPS

“World's Foremost Bulb Growers”

"Dido" was greatly admired at the New York flower show

May-Flowering or Cottage Tulips

These Tulips are generally slightly later than the Darwins. They have a gracefulness not developed in other types and this feature combined with their long stems and wide range of colors, makes them much appreciated for both garden and cut flower purposes.

We have included under this heading some of the Lily Flowering Tulips.

Exquisite Breeder Tulips

The past few years have seen a keen revival of interest in these beautiful Tulips and a subsequent great demand that should not be lost sight of by any dealer in bulbs. Their odd, artistic color makes a special appeal to American garden lovers.

The use of Breeder Tulips has steadily increased, and this year, with the much lower prices that prevail on many of the most beautiful kinds, we expect an unusual demand and have prepared our stocks accordingly.

"World's Foremost Bulb Growers"

Dutch Hyacinths

With the lower prices prevailing on Hyacinths we believe that larger quantities can be profitably used. We again remind you that our nurseries at Hillegom, Holland, are situated in the midst of the best Hyacinth section and our increasing volume of business in this item is proof that no finer Hyacinths are produced than those we send out. We have reduced our list of varieties and are now offering only those proven to have the greatest merit.

Hardy Lilies

LILIUM CANDIDUM

Madonna or Annunciation Lily

This is one of our leading specialties and we probably handle more bulbs than all other dealers combined. Quite naturally this large volume gives us an advantage in the selection of quality stock and in the regulation of import prices. Whether in Southern or Northern grown, we can be depended upon to furnish every size the crop produces at the most reasonable prices. Now ready.

"World's Foremost Bulb Growers"

Hardy Narcissus (DAFFODILS)

ALL of our Narcissus are grown on Long Island by experienced growers who have learned their trade in the fields of Holland prior to coming over here. Their thorough knowledge together with the great cooperation of the State and Federal government has enabled us to produce stocks as strong and healthy as can possibly be grown in this country. Our list includes all of the leading commercial varieties as well as many outstanding newer ones imported especially from our Gold Medal collection in Holland.

ANEMONE ST. BRIGID

ANEMONES

Anemones are becoming a leading market flower, not in quantity because there are never enough to meet the demand, but they are decidedly popular, and those who have been successful in forcing them have been amply repaid, as they are invariably sold quickly at a good price. They provide color effects that are unsurpassable in intensity, and a prolonged marketing season for the flowers can be maintained by planting successive batches.

RANUNCULUS

We have started many greenhouse men in the growing of Ranunculus and they are making money on them. The domestic bulbs are larger than those formerly imported and seem to force better. If your trade can use "something different" we suggest that you try them.

The giant French Ranunculus resemble in form a miniature pompon Dahlia but are as brilliant and varied in coloring as the Poppies and Anemones. In forcing them, give the same treatment as Anemones, but they do not mature quite as early.

GIANT FRENCH MIXED. The California grown bulbs are giving splendid results, and we have several letters from customers telling us of the fine flowers produced. Beautiful rosette flowers in a wide range of colors. Force well.

ZEPHYRANTES

This long neglected subject is now becoming recognized and is receiving some of the attention that its beauty and usefulness merits. As a house bulb for quick and sure flowering it has no equal and for the garden, there is scarcely a spot that will not be enhanced by its presence. It can also be forced easily.

CANDIDA

This is the fall flowering white variety which is very attractive for the late summer garden. It is specially adapted for growing in bowls with fibre, and with very little attention is readily flowered in a short time, making it an excellent store item.

ORNITHOGALUM THYRSOIDES

EUCHARIS AMAZONICA

ORNITHOGALUM

ARABICUM. Makes a large umbel of small white flowers with black base produced on a tall spike. Hardy and very prolific in the extreme South but must be protected in the north.

Per doz., 75c; per 100, \$5.00; per 1,000, \$40.00

UMBELLATUM (Star of Bethlehem). This is the small white hardy variety that is seen in great profusion around many of the old gardens. It propagates readily and adapts itself splendidly to naturalizing. It does well over a wide temperature range and blooms profusely each season with little or no care.

Per doz., 50c; per 100, \$3.00; per 1,000, \$25.00

THYRSOIDES. This is the famous Chinnerinchee the "Wonder Flower" from South Africa. The flowers are pyramidal in shape with the buds of straw color changing to pure white. It is not hardy in the north; but should make an excellent forcing subject and is very fine for outdoor planting in the South.

Per doz., \$1.25; per 100, \$8.50; per 1,000, \$75.00

STERNBERGIA LUTEA

This is a Fall flowering subject very similar to Colchicum in that it will flower without being planted. It resembles a large yellow Crocus. Fine for garden use also and hardy.

Per 100, \$8.00; per 1,000, \$70.00

BABIANA PREALTA

This beautiful subject can be easily forced if treated like Freesias. They have broader foliage than Freesia and larger and more open flowers. This variety is a corn flower blue.

Per Doz., 50c; 100, \$3.00; 1,000, \$25.00

EUCHARIS AMAZONICA

The well known Eucharis Lily recommended exclusively for indoors except in extreme southern states. Requires to be well established in pans or pots for free production of flowers. In Europe many growers devote whole houses to this subject and the flowers are classed with orchids and command corresponding prices. Bears from two to three white flowers on a stem.

Each 60c; doz., \$5.80; per 100, \$40.00

LEUCOJUM VERNUM

The illustration on this page conveys a good idea of these useful bulbous flowers. They are like giant snowdrops, are perfectly hardy and naturalize readily.

Per doz., 60c; 100, \$4.00; 1,000, \$35.00

NERINE SARNIENSIS

This beautiful item makes a very late summer cut flower or pot plant. The bulbs make an early start so should be ordered and planted at once.

Doz., \$1.50; 100, \$10.00

Antholyza and Watsonias

Both of these subjects are closely related to Gladiolus and the bulbs can be handled in a similar manner. They make long graceful spikes and come in a range of art colors not often seen in other plants.

They may be forced gently in a carnation temperature.

ANTHOLYZA

THE FINEST IN FREESIAS

Unless the crops look good in the fields the bulbs will not perform satisfactorily when forced. Our stocks are field inspected.

Freesias have invariably been a profitable crop and quite naturally the demand has increased considerably. We have provided an additional quantity of the same high class stock as we have handled in past seasons and we are prepared to take care of your order.

DIELYTRA SPECTABILIS

DIELYTRA SPECTABILIS

(BLEEDING HEART)

We have been advocating the more extensive use of this beautiful decorative plant for several years and those of our customers who have availed themselves of our suggestion have profited. It is used extensively as an early spring pot plant and is a fine specialty for St. Valentine's day. The cut sprays are also useful. It is perfectly hardy and makes a splendid showing in the perennial border or when planted with early bulb stocks.

We are the largest growers of this very useful plant and offer large clumps suitable for forcing or outside planting.

Extra large clumps doz., \$5.00; 100, \$35.00; 1000, \$325.00
Medium size clumps doz., 4.00; 100, 27.50; 1000, 250.00

(Ready for delivery any time after October 15th)

TRITOMA

"Red Hot Poker" or "Flame Flower"

These are very showy decorative plants and are being profitably grown for cut flowers. They seem to do particularly well at our Long Island farm. We offer strong divisions as under

PFITZERI. This is the leading variety. It is a prolific bloomer and the flowers are a beautiful flame red color.

Per doz., \$2.00; per 100, \$15.00

RUFA. This a dainty variety that is becoming very popular. Tall slender flowers and foliage. Orange yellow. Good for forcing also.

Per doz., \$1.75; per 100, \$12.00

SUPERB HYBRIDS. We have made a selection of the most conspicuous and useful varieties from a large planting of seedlings obtained from one of the noted European specialists. These range in color from almost pure white through the various shades of yellow and touch upon the coral pinks. Their early and constant flowering habit make them a most useful addition to our summer flowers.

Per doz., \$1.75; per 100, \$12.00

Ready after October 15th.

PEONIES

We are growing a nice block of Peonies on our Long Island farm and the plants look particularly well this season. No flowers are cut from this stock and thus the full strength of the plants is reflected in the roots we send out.

We list below the most important kinds of which we have good quantities but we are also growing many other kinds that will be quoted upon application.

Shipments—All varieties are offered in strong 3 to 5 eye division for September and later delivery

Long Island

ALTHOUGH gladiolus are being produced in many different sections of the country, our extensive forcing tests have shown us that the quality of Long Island grown bulbs are still in the lead, bringing the largest percentage of strong vigorous flowers. We have therefore increased our acreage considerably although the cost of growing there is much greater than in many other sections. A large part of our farm at Yaphank, L. I., has been devoted to the producing of bulbs particularly suitable for forcing purposes of which no flowers have been cut at all.

GLADIOLUS "THE BRIDE"

GLADIOLUS COLVILLEI or "BABY GLADS" Now Ready

These beautiful early-flowering varieties are invaluable for early planting in pots, flats or benches. They force readily and may be had in flower from March to May. Their rich colors and vivid markings make striking contrasts with other flowers, and last quite a long time in water, opening up to the terminal flower on the spike. They flower outdoors in June.
